# Step-by-step Instructions

01

Copy this image (or another image that inspires you). Now remove the padding from the cushion so that you can work on the flat surface of the cushion cover. Using chalk, copy an outline of the image onto the cover.

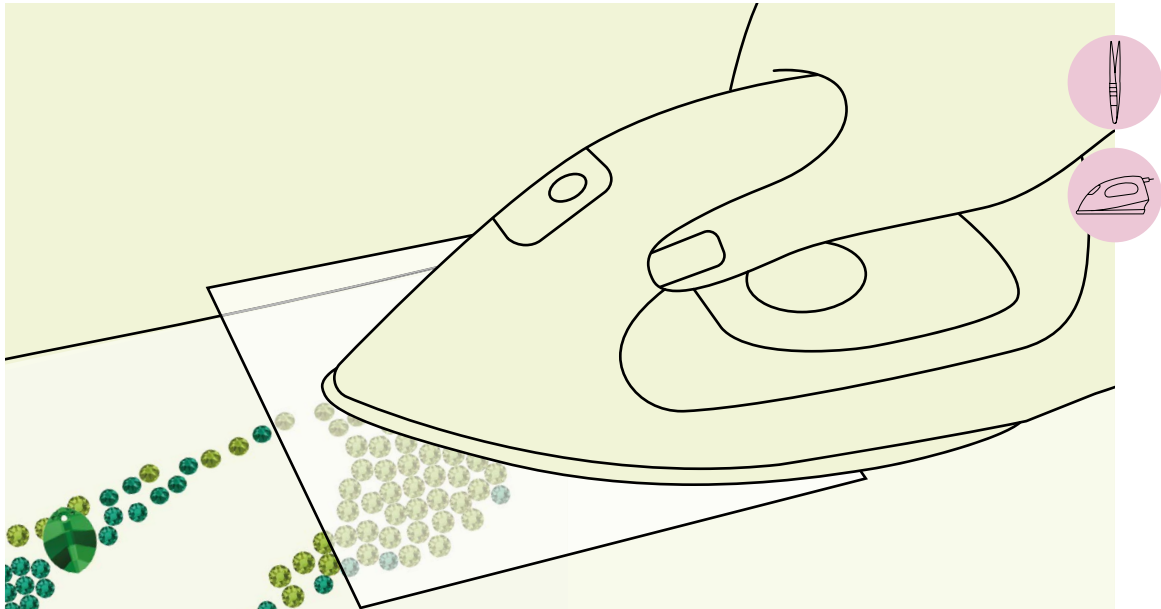

02

Using tweezers, place **Xirius Rose Hotfix** crystals along the chalk outline, alternating the two shades of green (Olive and Emerald) and including a few Fern Green on some of the leaves.

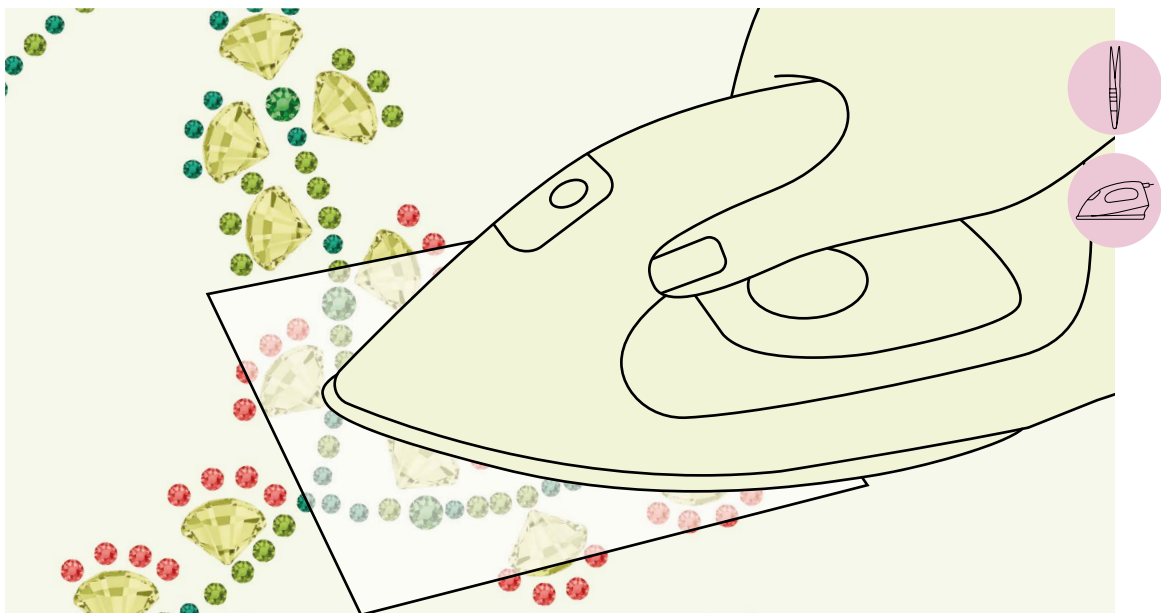

# Step-by-step Instructions

03

Place the Teflon sheet carefully on top of the crystals and iron it.

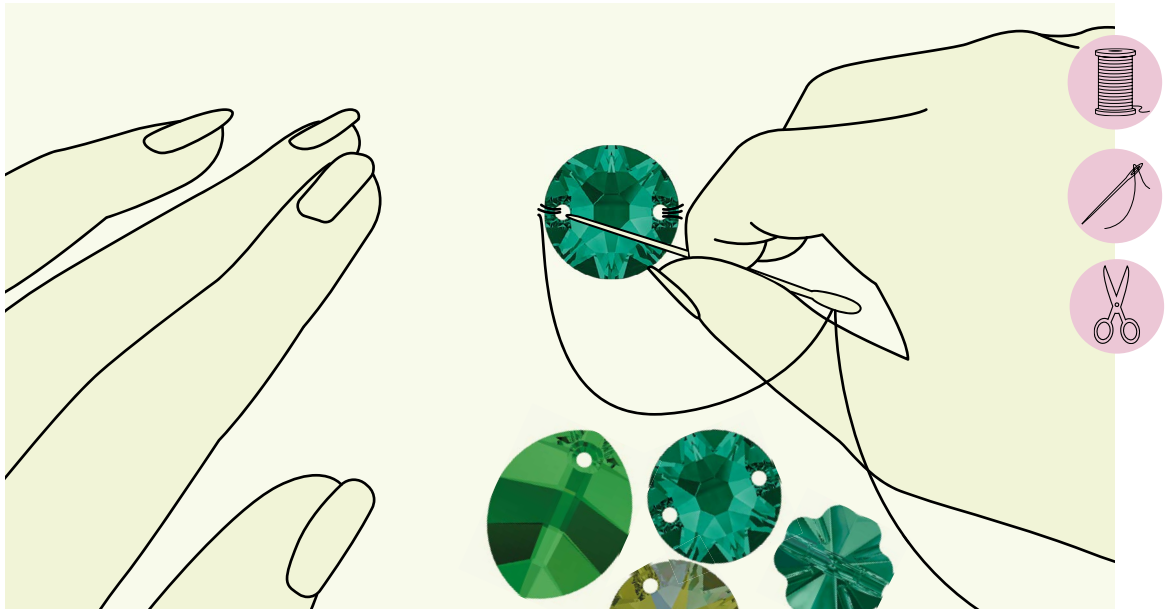

04

Continue placing the **Hotfix crystals** along the outline. Do this stage by stage, covering with Teflon and ironing to secure them in position before moving on to the next part of the design.

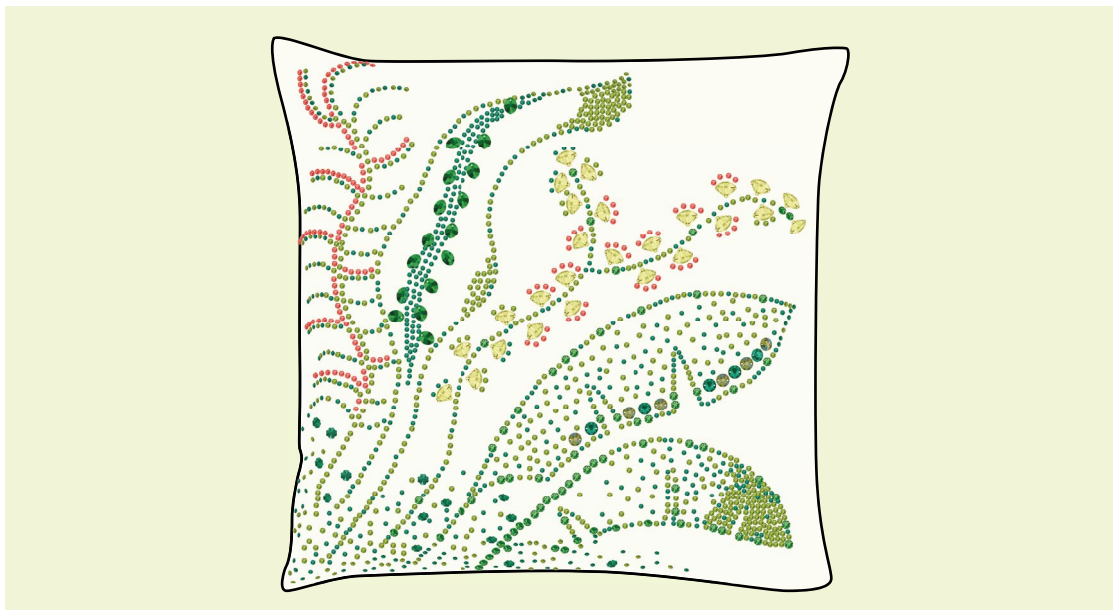

# Step-by-step Instructions

05

Sew the **Pure Leaf Pendants** onto the inside of one leaf; then sew the **Xirius Sew-on Stones** onto the inside of another leaf, alternating the two shades of green. Now sew the **Clover Crystal button** randomly onto a corner of the cushion.

06

Bring the garden indoors with sparkling lush, green leaves.
